Share Your Medical Journals with Colleagues Overseas

The doctors of the U.S.A. are being asked to send their medical journals—after they have read them—to colleagues overseas (Asia, Latin America, and Africa) who wish to have access to current medical literature but, either because of currency regulations or actual cost involved, cannot themselves subscribe to medical periodicals. We can supply you with the name, address, and medical specialty of doctors in these areas who would be happy to receive these much wanted journals (*particularly specialty journals*), which you will mail direct to your overseas colleague.

This is a direct “Doctor-to-Doctor” program which is being sponsored by the American Medical Association with the collaboration of The World Medical publications and to further international good will. Your cooperation in this program will be greatly appreciated and your contact with these colleagues in other countries, we can assure you, will prove very gratifying. If you wish to participate in this program, send your name, address, and titles of journals you will contribute to DOCTOR-TO-DOCTOR PROGRAM, c/o The World Medical Association, Inc., 10 Columbus Circle, New York, New York 10019.
